

## **Frequently Asked Questions**

**Will The Liberator work on my boat:** Depends on certain dimensions, especially the side door location. We will need detailed dimensions of your pontoon boat.

**What powers The Liberator:** Uses your standard 12 volt battery, weak batteries will need to be replaced.

**Is it all weather:** The Liberator is manufactured of marine grade everything, utilizing aluminum, plastic and stainless steel parts.

**Warranty:** 3 years normal and customary.

**Color choices:** We are using only Weathermax 80 for the top cover material and the colors they offer.

**What if I want a new boat with a Liberator top:** Please call Manitou Beach Marine (517-262-5026) or Krupas Boat Mart (517-782-7146) They will be offering The Liberator on new pontoon boats.

**Can I trailer with The Liberator top:** Yes you can, however the rear corners need to be tied down with the provided straps.

**Winter Storage:** The Liberator is not designed to handle heavy wet snow loads. The cover canvas must be removed before shrink wrap is applied.
